

This project is currently planned for the southeast corner of Tahoma Blvd. SE and Longmire St. SE, adjacent to the existing picnic shelter. A meeting with the Tahoma Terra Homeowners Association was recently held to discuss the location, impact and scope of the project. A construction date has not yet been set, and the project is currently not funded. Public Works and Administrative leadership are working on funding options for this project and are working closely with the HOA on land acquisition for the pump track, as well as mitigating impacts to the neighborhood should this project move forward in the next biennium.
